SARAH JENKINS

Lead Cloud Infrastructure Architect

Email: sarah.jenkins.cloud@opsnet.com | Phone: +1 (206) 412-9033 | Location: Seattle, WA | GitHub: sjenkins-infra

PROFESSIONAL SUMMARY

Lead Cloud Infrastructure Architect with 8 years of deep expertise in Kubernetes, Terraform, Docker, and AWS ecosystem. Proven track record establishing multi-region zero-downtime infrastructure, automated CI/CD deployment pipelines, and enterprise telemetry with Prometheus & Grafana.

TECHNICAL COMPETENCIES & SKILLS

- **Cloud Platforms:** AWS (EKS, VPC, CloudFront, Route53, RDS, IAM), Google Cloud (GCP)
- **IaC & Automation:** Terraform, Terragrunt, CloudFormation, Ansible, Bash, Python
- **Containers:** Kubernetes, Docker, Helm, Docker Compose, Linux
- **Observability:** Prometheus, Grafana, Datadog, CloudWatch

WORK EXPERIENCE

Lead DevOps & Infrastructure Engineer | Stratosphere Networks

2020 - Present

- Designed and maintained multi-region AWS cloud infrastructure using Terraform, managing 35+ production Kubernetes clusters.
- Implemented GitOps continuous deployment pipelines with GitHub Actions, reducing deployment failure rates to under 0.2%.
- Enforced zero-trust networking policies and cluster security benchmarks across Linux and Docker workloads.
- Decreased monthly cloud compute spend by 32% using spot instances and automated HPA pod autoscaling.

Senior Cloud Engineer | Matrix Software Labs

2016 - 2020

- Automated infrastructure provisioning on AWS using Terraform and Docker.
- Administered Linux servers, Nginx reverse proxies, and centralized logging clusters.
- Configured real-time system alerts and SLO/SLA dashboards in Grafana and Prometheus.

EDUCATION

Master of Science in Computer Engineering 2014 - 2016

University of Washington

CERTIFICATIONS

â€¢ Certified Kubernetes Administrator (CKA)
â€¢ AWS Certified Solutions Architect - Professional
